Notes | Council requested Staff to review the goals, set timelines and create proposed assignments who will review the goals in smaller committees.

Once the Committees have had a chance to meet, a report of their outcomes will be rendered to Council for consideration. In some cases, this will require ordinances to be drafted, or other actions taken by the full

Proposed Timeline | June through September

1. Planning | Storage Containers 

\* The City does not have any rules in place for metal storage containers. People are using them not only as accessory structures for storage, but also as primary residences. Does Council want to address rules that shape the use of storage containers? Do storage containers as primary or secondary structures match the historic image Brownsville attempts to project?

Council recommended this issue to the Planning Commission for review.

2. Planning | Building Standards (Architectural Aesthetic) 

\* Staff presented this issue to the Historic Review Board before the Dollar General started building. No recommendations were made by the HRB, so the City had no applicable standards for the Dollar General to follow. The City requested certain aesthetic items be completed but had zero force of law. The Dollar General honored a few of the City's requests.

The City could pass ordinances that would require private building projects to adhere to a set of rules and requirements for building appearance. Without any standards, builders do not have to do anything other than meet the civil Public Works Standards.

★ Council & Staff training that leads to understanding project scope and the City's role in developments in town. Staff needs support from Council. Staff began compiling the Policy & FYI series that is updated monthly in the Council agenda packet to help with general understandings of City operations.
