

Watch Now: RMA Webinar for Local Governments

The LOC, in partnership with the Association of Oregon Counties, the Oregon Refuse & Recycling Association, and the Oregon Department of Environmental Quality (DEQ), has produced a video of a recent webinar on the Recycling Modernization Act (RMA).

The webinar includes a DEQ presentation focused on local government's unique role in implementing Oregon's new recycling system, including new obligations, new funding, and opportunities to engage.

The video and presentation slides are now available on the [DEQ's website](#). An FAQ will be posted soon as well.

Watch the webinar [here](#).
