Good Afternoon Scott,

I have attached a revised 2024-2029 TMDL which includes the missing items from the matrix. The most recently submitted TMDL (09/30/2023) was for the DEQ's required 5 year comprehensive review of overall plan implementation progress from 01/01/2019 – 12/31/2023. After the comprehensive review, we submitted an updated TMDL which provides the City's TMDL implementation strategies for the next 5 years. The online survey that you completed was also a requirement of the 5 year implementation plan update.

I believe the TMDL that we submitted prior to the 5 year update was the TMDL Mercury update which was submitted in September of 2022 and resubmitted with corrections in April of 2023. I have attached the DEQ approval letter that we received for the Mercury update which includes some of the dates for our previous TMDL Submittals and the upcoming February 5th annual reporting deadline.

Please let me know if you have any questions or if you would like me to make any further changes to this TMDL. Otherwise, I believe this TMDL is ready to be sent back to DEQ for approval.

Thank you,

Jesse McElwain
