Have you ever had utility service in Brownsville? Yes or No | If yes, what was the address:

For Renters Only:

Property Owner Name	Address	Phone
---------------------	---------	-------

PLEASE READ AND SIGN THE STATEMENT BELOW

I agree to abide by all of the Ordinances and Resolutions and any other rules and regulations which may be adopted by the City Council in the future regarding utility services.

A deposit of \$100 is required before service is turned on. This deposit will be refunded if the customer moves out of town or it may be applied to any unpaid balances. This deposit may be transferred to another residence if the customer moves within the City limits. All customer accounts must be in good standing before ANY deposit refund or transfer. The deposit will not gain interest.

Sewer rates are billed one month in advance. Your first billing will reflect the charges of the month of move-in plus the upcoming month. Water is billed from the 15th to the 15th. **The bill for the first month is usually 30-40% higher than a normal bill because of the sewer being billed one month ahead.**

Accounts are due and payable within ten (10) days of receipt. A late charge of \$7.50 shall be charged on all accounts thirty (30) days past due. The City charges \$10.00 when a 24-hour shutoff notice is issued; and a restoration fee of \$15.00 if the water is shut off for non-payment. There is an additional \$15.00 charge if water service must be restored after regular working hours of City employees. If water is shut off at the customer's request for repairs during normal working hours, a \$15.00 fee will be charged. All of these charges will be reflected on the customer's billing statement. It is in violation of the Brownsville Municipal Code (BMC) 13.05.490 to turn a water meter back on after it has been shut off by City personnel for non-payment. Turning the meter back on could result in penalties and fines as defined in the Brownsville Municipal Code (BMC).

I understand and agree to the above conditions. _____
